(4) If any canner's 1945 pack of canned fish of any class (designated in (b) (1) hereof) is less than 12,000 pounds such canner may consider such canned fish as a part of his 1945 pack of canned fish of

any other class (designated in (b) (1) hereof)

(5) The Director may issue specifications at any time relative to the packing of the canned fish, the containers, container treatment, can marking, labeling, boxing, and strapping in connection therewith, or he may authorize any governmental agency to issue such specifications. Each person subject to the provisions of this order shall comply with such specifications, issued by the Director or the governmental agency authorized by the Director to issue such specifications, applicable to the canned fish processed by such person.

(c) *Inspection and grading.* All canned fish subject to the provisions of this order shall be subject to inspection and grading at any time by the Director or any governmental agency authorized by the Director to make such inspection and grading.

(d) *Contracts.* The restrictions of this order shall be observed without regard to contracts heretofore or hereafter entered into, or any rights accrued or payments made thereunder. (e) *Records and reports.* (1) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in canned fish.

(f) *Audits and inspection.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of canned fish of any person, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(g) *Applicability of order.* Any person doing business in one or more of the 48 States, the District of Columbia, or the Territory of Alaska, is subject to the provision hereof, but the provisions hereof shall not apply to any person doing business in any other Territory or Possession of the United States with respect to such business.

(h) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using canned fish. In addition, any person who willfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(i) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator,

insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order; and one such employee shall be designated by the Director to serve as order administrator, and such other employees as may be necessary shall be designated to serve as deputy order administrators.

(j) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship on him may apply in writing for relief to the Director, setting forth in such petition all pertinent facts and the nature of the relief sought. The Director may thereupon take such action as he deems appropriate, which action shall be final.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided herein or in instructions issued by the Director, be addressed to the Director of Marketing Services, War Food Administration, Washington 25, D. War Food Order No. 115, as amended (9 F.R. 12239, 12947, 14927, 10 F.R. 103, 2135), is further amended as follows:

1. By deleting the provisions of § 1490.8 (b) (1) and inserting, in lieu thereof, the following:

(1) The set-aside quota for each manufacturer of candy bars, candy rolls, or

candy packages shall be computed as follows: The respective manufacturer shall total his production of each type of candy bar, candy roll, or candy package during the period from January 1, 1944, to June 30, 1944, inclusive, and divide each such aggregate total production figure by the figure 6. The total thus obtained for each type of candy bar, candy roll, or candy package is hereinafter referred to as the "base production quantity" for that type of candy bar, candy roll, or candy package. The respective manufacturer shall, during the calendar month of October 1944 and each calendar month thereafter through March 1945, set aside out of his production during the respective calendar month and thereafter hold for sale and delivery to a governmental agency a quantity of candy bars, candy rolls, or candy packages equal to 50 percent of the base production quantity for such manufacturer, of each type, as aforesaid, of candy bars, candy rolls, and candy packages, respectively, unless otherwise specifically authorized by the Director. Such manufacturer also shall, during the calendar month of April 1945 and each calendar month thereafter, set aside out of his production during the respective calendar month and thereafter hold for sale and delivery to a governmental agency a quantity of candy bars, candy rolls, or candy packages equal to 35 percent of the base production quantity for such manufacturer, of each type, as aforesaid, of candy bars, candy rolls, or candy packages, respectively, unless otherwise specifically authorized by the Director. In the event the production by a particular manufacturer is, during October 1944 or any subsequent calendar month, less than the amount required to be set aside pursuant to the provisions hereof, such manufacturer shall set aside 100 percent of such production.

2. By deleting the provisions of § 1490.8 (b) (2) and inserting, in lieu thereof, the following:

(2) In the event a manufacturer produces subsequent to October 1, 1944, a type of candy bar, candy roll, or candy package which he did not produce during the period from January 1, 1944, to June 30, 1944, inclusive, he shall set aside and thereafter hold for sale and delivery to a governmental agency, for each calendar month in the period September 30, 1944, through March 31, 1945, during which he produces such type of candy bar, candy roll, or candy package, 50 percent of his production of such type during the respective calendar month; and he shall set aside and thereafter hold for sale and delivery to a governmental agency, for each calendar month after March 31, 1945, during which he produces such type of candy bar, candy roll, or candy package, 35 percent of his production of such type during the respective calendar month.

The provisions of this amendment shall become effective at 12:01 a. m., e. w. t., April 1, 1945. With respect to violations, rights accrued, liabilities incurred, or appeals taken under said War Food Order No. 115, as amended, prior

### PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

#### [Priorities Reg. 1, Interpretation 13]

#### APPLICABILITY OF ORDERS AND REGULATIONS TO USED OR SECOND-HAND MATERIALS AND PRODUCTS

The following interpretation is issued with respect to Priorities Reg. 1.

(a) Every order or regulation of the War Production Board applies to materials and products in used or second-hand form (other than scrap) to the same extent as to new items, unless the order or regulation or a published interpretation of it expressly states otherwise.

(b) The following examples illustrate the above rule: (1) Order L-265 regulates the manufacture and distribution of "electronic equipment" The definition of this term in paragraph (a) (3) of the order does not exclude used or second-hand equipment from the coverage of the order. Therefore, all of the provisions of the order apply to both new and used or second-hand electronic equipment.

(2) Paragraph (c) of Order L-190 controls the distribution of new Class D scales. The term "new" is defined in the order. Therefore, the restrictions of paragraph (c) apply only to Class D scales which are "new" as defined in the order, and this interpretation does not apply to that order.

### PART 3288—PLUMBING AND HEATING EQUIPMENT

[Limitation Order L-182, as Amended Mar.  
27, 1945]

#### COMMERCIAL COOKING AND FOOD AND PLATE WARMING EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials used in the production of commercial cooking and food and plate warming equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.46 *General Limitation Order L-182—(a) Definitions.* For the purposes of this order:

(1) "Commercial cooking and food and plate warming equipment" means new equipment (except equipment specially designed to use electricity as the heating agent) designed for the heating of kitchen utensils or plates, or for the cooking or baking of food for consumption or sale on the premises in

which the equipment is located. It does not include cooking appliances for household use. It does include, but is not limited to, such items as the following:

Bakers.  
Broilers.  
Fryers.  
Griddles.  
Grills.  
Hot plates.  
Ovens (except built-in types).  
Ranges.  
Roasters.  
Steamers.  
Toasters.  
Urns.  
Warmers.

It also includes new steam-jacketed kettles, regardless of any use to which they may be put, which are designed to use steam at working pressures of less than 90 pounds per square inch, except enamel and glass lined kettles specifically designed for use by the chemical and pharmaceutical industry for the rendering of oils and fats.

(2) [Deleted Sept. 30, 1944.]

(b) *Restrictions on production.* (1) No person shall produce any commercial cooking and food and plate warming equipment except:

(i) For delivery to or for the account of the Army, Navy, Maritime Commission, Veterans' Administration, or War Shipping Administration; or

(ii) As authorized by the War Production Board on Form GA-1850.

(2) The restrictions of paragraph (b) (1) do not apply to the production of repair and replacement parts. However, no person shall produce repair or replacement parts in excess of the quantity required to maintain a minimum practicable working inventory.

(3) A person wishing to produce commercial cooking and food and plate warming equipment which will not be delivered to or for the account of the Army, Navy, Maritime Commission, Veterans' Administration, or War Shipping Administration, should apply for authorization by letter addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Reference L-182. This letter should give all pertinent information with respect to proposed production. Where the applicant will need controlled materials in order to produce the equipment, the letter requesting authorization should be accompanied by application on Form CMP-4B for the controlled materials.

(4) Production will be authorized so that the total production will not exceed the approved War Production Board program and so that the production in any one plant, or labor requirements therefor, will not interfere with war production in that plant, or in any other plant located in the same area. This program calls in each calendar quarter for production by the industry as a whole of not more than 18% of the aggregate production of the industry in the year 1941, in addition to production of repair and replacement parts and of equipment to be delivered to or for the account of the Army, Navy, Maritime Commis-

sion, Veterans' Administration, or War Shipping Administration. Individual authorizations will be issued in amounts sufficient to carry out this program.

(c) *Distribution.* It is the policy of the War Production Board that each manufacturer shall distribute his production through his normal distribution channels, taking into consideration shipments to areas during 1941, migration of workers to certain areas, and such other factors as will provide equitable distribution to meet essential needs. The War Production Board may direct the distribution of specified amounts from any manufacturer's production to meet emergencies.

(d) [Deleted Sept. 30, 1944.]

#### PART 3288—PLUMBING AND HEATING EQUIPMENT

[Limitation Order L-248 as Amended Mar. 27, 1945]

##### COMMERCIAL DISHWASHERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used in the manufacture of commercial dishwashers for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.61 *General Limitation Order L-248*—(a) *Definitions.* For the purposes of this order:

(1) "Commercial dishwasher" means any new mechanical device designed for washing dishes, cutlery, glassware or kitchen utensils in establishments where food is prepared for consumption or sale on the premises. The term does not include dishwashers designed for domestic use.

(2) "Ultimate consumer" means any person who uses a commercial dishwasher for washing dishes, cutlery, glassware and kitchen utensils.

(3) [Deleted June 7, 1944]

(4) [Deleted June 7, 1944]

(5) "Copper base alloy" means any alloy metal in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy. It shall include alloy metal produced from scrap.

(b) *Restrictions on production.* (1) No person shall produce any commercial dishwashing equipment except:

(i) For delivery to or for the account of the Army, Navy, Maritime Commission, Veterans Administration, or War Shipping Administration; or

(ii) As authorized by the War Production Board on Form GA-1850.

(2) The restrictions of paragraph (b) (1) do not apply to the production of repair and replacement parts. However, no person shall produce repair or replacement parts in excess of the quantity required to maintain a minimum practicable working inventory.

(3) A person wishing to produce commercial dishwashing equipment which will not be delivered to or for the account of the Army, Navy, Maritime Commission, Veterans Administration, or War Shipping Administration, should apply for authorization by letter addressed to the War Production Board, Plumbing and Heating Division, Wash-

ington 25, D. C., Ref: L-248. This letter should give all pertinent information with respect to proposed production. Before sending this letter, the applicant should consult his War Production Board Field Office regarding the necessity for submitting Form WPB-3820. Where the applicant will need controlled materials in order to produce the equipment, the letter requesting authorization should be accompanied by application on Form CMP-4B for the controlled materials.

(4) Authorization will be granted, on the basis of the applicant's proposed use of labor, possibility of interference with war production, and the facilities available for this production. Production will not be authorized where the applicant's proposed use of labor will interfere with local or inter-regional recruitment of labor. Applications from persons who have not previously been engaged in the production of commercial dishwashers will be accepted and processed on the same basis as all other applications.

(c) *Restrictions on delivery.* No manufacturer, distributor, or dealer may deliver or accept delivery of new commercial dishwashers except as follows:

(1) To fill orders of or for ultimate delivery to the Army,<sup>1</sup> Navy, Maritime Commission, Veterans Administration, or War Shipping Administration, or to any agency of the United States Government placing orders for equipment to be delivered to, or for the account of, any other country under the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), or to fill orders authorized by the Maritime Commission on Form WPB-646.

(2) For approved installation in a building or project authorized by any order of the P-19 series on Form CMPL-224 or Form GA-1456, or in the P-55 series on Form WPB-2896.

(3) As approved by the War Production Board on Form WPB-1319. The ultimate consumer should apply to the Plumbing and Heating Division, War Production Board, Washington 25, D. C., on this form, describing the equipment to be delivered. The War Production Board will return a copy to him with its approval or denial of the application indicated. If approval is granted, the ultimate consumer may certify by endorsement on his purchase order in the standard form prescribed in Priorities Regulation 7, adding the serial number of authorization on Form WPB-1319 he has received, or, if he prefers, he may certify as follows:

The War Production Board has authorized me to accept delivery on this order, under the terms of Order L-248 (and L-182) with which I am familiar. Delivery approved on Form WPB-1319, serial number \_\_\_\_\_

(Consumer)

A dealer or distributor receiving an order so certified may obtain delivery of

<sup>1</sup>Under Interpretation 1 to the preceding version of this order, material for Army Pre-Flight training schools, to be owned privately and not by the Army, could not be delivered without War Production Board approval. This is still true.

equipment to fill the order if he endorses a similar certificate unless he knows or has reason to believe it to be false. A dealer or distributor who wants to buy for inventory must also apply on Form WPB-1319, filed with the Plumbing and Heating Division, War Production Board, Washington 25, D. C., indicating the manufacturer of the product he wishes to buy. If his application is approved, the procedure to be followed is the same as set forth above with respect to consumers' applications except that he may buy only the product of the manufacturer indicated.

(4) [Deleted Dec. 29, 1944]

(5) A dealer or distributor may make delivery to another dealer or distributor or to a manufacturer.

(d) *Delivery of repair and replacement parts.* Nothing in this order shall prevent the delivery of repair or replacement parts for commercial dishwashers.

(e) *Simplified practices.* No person shall manufacture, fabricate or assemble any commercial dishwashers except in accordance with the specifications and practices given below in this paragraph. No person shall manufacture, fabricate or assemble any other type of commercial dishwasher except in accordance with the specifications and practices given below in this paragraph. However, this paragraph does not revoke or modify the terms of any appeal granted under this order.

(h) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of all the regulations of the War Production Board, as amended from time to time.

(i) *Applicability of other orders.* Insofar as any other order issued, or to be issued hereafter, limits the production or delivery of commercial dishwashers to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(j) *Exceptions and appeals.* (1) *Production under Priorities Regulation 25.* Any person who wants to manufacture, fabricate or assemble more commercial dishwashers than he has been authorized to make on Form GA-1850 (including a person who has no authorization) may apply for permission to do so as explained in Priorities Regulation 25. # PART 3292—AUTOMOTIVE VEHICLES, PARTS AND EQUIPMENT

[Limitation Order L-1-e, as Amended Mar.  
27, 1945]

## MOTOR TRUCKS AND TRUCK TRAILERS

The fulfillment of requirements for the defense of the United States having created a shortage in the supply of rubber, steel and other materials entering into the production of trucks, trailers, and passenger carriers for defense, for private account and for export, the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3292.1 *Limitation Order L-1-e—(a) Definitions.* For the purposes of this order.

(1) "Motor truck" means a complete motor vehicle, or the chassis thereof, designed for operating entirely or in part on rubber tires for use either on or off the public highways in the military or commercial transportation of materials or persons, but does not include motorized fire equipment as defined in Limitation Order L-43 or passenger carriers as defined in Limitation Order L-101.

(2) "Truck-trailer" means a complete full trailer or semi-trailer, or the chassis thereof, designed for the transportation of materials or persons and to be drawn by a motor truck, but does not include integral trailer buses as defined in Limitation Order L-101.

(3) "Component" means any automotive type assembly with the parts thereof, listed on Schedule A to this order as amended from time to time, whether to be incorporated into trucks, truck-trailers or other end products and includes military spares.

(4) "Producer" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacture of motor trucks or trailers.

(5) "Supplier" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacture of components.

(b) *Prohibition of production of motor trucks and trailers.* On and after January 1, 1944, no producer shall produce any motor trucks or truck-trailers either for military or non-military use, except as authorized in writing by the War Production Board.

(c) *Production to be scheduled.* The War Production Board will transmit to each producer an authorized motor vehicle production schedule on Form GA 1188, which schedule becomes a "frozen" schedule under Priorities Regulation 18. The producer must schedule his production and make his shipments so as to fill the frozen schedule without regard to preference ratings or directions of any governmental agency, other than the

War Production Board. The War Production Board will as necessity arises issue specific directions to suppliers, directing the production of any component on Schedule A, both for original equipment and for replacement parts for civilian use, and establishing production and shipping schedules which will become frozen schedules under Priorities Regulation 18. In establishing such production and shipping schedules the War Production Board will use either Form WPB-3629 or WPB-3809 until May 1, 1945. After that date only Form WPB-3809 will be used for this purpose. *Provided*, That whenever any such specific direction is received by a supplier which would interfere with the production or shipment of previously accepted orders bearing AA-1 or higher preference ratings, or with a frozen schedule under Priorities Regulation No. 18, the supplier shall immediately notify the Automotive Division, War Production Board, in writing, and the specific direction shall not become effective pending instructions from the War Production Board. Any frozen schedule may be amended by the War Production Board in accordance with Priorities Regulation 18 or paragraph (g) of this order.

(d) *Protection of frozen schedules.* On and after January 4, 1944, except as permitted by the provisions of paragraph (b) of Priorities Regulation 18, no producer or supplier shall accept an order for any product the production of which will delay or interfere with his frozen schedule under this order.

(e) *No duplication of orders.* No producer or supplier shall place any order with one or more suppliers for a total quantity of any component on Schedule A in excess of his actual requirements of that component to fill his own production schedule.

(f) *Schedules to be filed when directed.* If no production schedule is supplied by the War Production Board as provided for in paragraph (c) above, producers when so directed by the War Production Board shall file schedules for the production and shipment of trucks and truck-trailers; and suppliers of components on Schedule A when so directed by the War Production Board shall file schedules for the production and shipment of such components, both for original equipment and for replacement parts for civilian use on Form WPB-3809 in accordance with the instructions accompanying the form. In arranging the sequence of production and shipment on his schedule, the producer and the supplier shall be governed by Priorities Regulation 1, unless otherwise instructed. When the schedule has been filed it becomes a frozen schedule under Priorities Regulation 18 and the producer or supplier shall schedule his production and make his shipments so as to fill the frozen schedule without regard to preference ratings or directions of any governmental agency except the War Production Board.

(g) *Other scheduling provisions.* With respect to production or shipping of motor trucks, truck-trailers or components on Schedule A, both for original equipment and for replacement parts for

civilian use, the War Production Board may, notwithstanding any other order, preference rating, directive, rule or regulation (except Priorities Regulation 18) of the War Production Board, or other governmental agency:

(1) Revoke or modify any authorization provided for in paragraph (b) of this order.

(2) Direct the return or cancellation of any purchase order on the books of a producer or supplier.

(3) Direct changes in the production or shipping schedule of a producer or supplier.

(4) Cancel purchase orders placed with one producer or supplier and direct that they be placed with another producer or supplier.

(h) *Preference rating of AA-1 assigned.* Producers of motor trucks and truck trailers and suppliers of components on Schedule A produced on frozen schedules under the terms of this order, are assigned a rating of AA-1 for materials entering into the production of motor trucks, truck-trailers and components on Schedule A.

(i) *Vehicles for civilian use to be subject to General Order ODT 44, effective July 1, 1944.* All trucks and truck trailers produced under terms of this Order, except those produced on orders for the United States Army or Navy will be subject to the procedures of Office of Defense Transportation Order ODT 44, effective July 1, 1944.

(j) *Reports.* Producers of trucks and trailers and suppliers of components on Schedule A shall file such reports as may be required from time to time by the War Production Board.

(k) *Applicability of War Production Board regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time except where otherwise stated.

(l) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(m) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate with the Field Office of the War Production Board nearest the appellant's place of business, referring to the particular provision appealed from and stating fully the grounds for appeal.

(n) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Automotive Division, Washington 25, D. C., Ref. Order L-1-e.

Issued this 27th day of March 1945.

(d) *Restrictions on lead content of certain products.* No person shall put into process in any calendar quarter in the manufacture of any of the products listed below for the uses appearing opposite those products, a greater quantity of lead than is indicated opposite those products. With respect to the remainder of the first quarter of 1945, each person shall take into account the quantity of lead already used during that quarter in determining whether he has already used his quota for the first quarter of 1945. If he has already used his quota, he shall not use any additional lead during the quarter for the manufacture of any of the products listed below for the uses indicated.

Note: Table amended in its entirety Mar. 27, 1945.

<sup>1</sup> Society of Dyers, and Colourists "Colour Index," Bradford, Yorkshire, January 1924.

lead. Toll arrangements are subject to the following restrictions:

(1) Any quantity of lead put into process under toll arrangement in any calendar quarter for the production of any product for the particular use described in paragraphs (d) (e) (f) (g) and (h) shall be charged against the owner's lead quota instead of the processor's, if the owner manufactured the product himself for that use or had it manufactured for him for that use in the corresponding calendar quarter of 1944.

(2) Any quantity of lead put into process under toll arrangement during any calendar quarter for the production of any such product for any such use, must be charged against the lead quota of the processor, and not against the lead quota of the owner, if the owner did not manufacture that product for that use or have it manufactured for him for that use during the corresponding quarter of 1944.

(3) Any processor who is offered lead for processing on toll arrangement, shall assume that he is required to charge the lead against his own lead quota, unless he is advised in writing by the owner that the owner manufactured the same product or had it manufactured for him for the same use during the calendar quarter of 1944 corresponding to the calendar quarter in which the lead is to be put into process, and that the quantity offered can and will be charged against the owner's lead quota.

(4) Quantities charged against a lead quota pursuant to this paragraph (j) shall be considered as having been put into process by the holder of that quota.

NOTE: Paragraphs (k), (l) and (m), formerly (h), (i) and (j), redesignated Mar. 27, 1945.

(k) *Method of computing lead content of lead chemicals.* This order limits the amount of lead which a person may put into process in any calendar quarter for the production of certain products to a percentage of the lead which he put into process during the first six months of 1944. In order to determine this percentage in lead chemicals, the following table should be used:

Lead Chemicals:	Pounds of lead per 100 pounds of lead chemicals
Lead acetate (basic).....	60
Lead acetate (normal).....	55
Lead antimonate.....	63
Lead arsenate.....	60
Lead arsenite.....	50
Lead chloride.....	75
Lead dioxide.....	87
Lead nitrate.....	63
Lead silicate (mono).....	80
Lead silicate (di).....	61
Litharge.....	93
Red lead.....	91
Basic carbonate of white lead.....	80
Basic sulphate of white lead.....	75
Sodium plumbite.....	73

(l) *Inventory restrictions on white lead.* No person whose use of white lead is restricted by this order, shall accept

any delivery of white lead which shall result in his having an inventory at the time of such delivery in excess of the amount of lead he is entitled to put into process under the provisions of this order in that calendar quarter, for the production of paint, varnish, lacquers (including paste white lead) and ceramics. For the purposes of this paragraph, the term "inventory" includes inventory at factory, as well as in transit to factory.

(m) *Special directives.* The War Production Board may from time to time issue special directives with respect to the use, production or processing of lead chemicals, notwithstanding the other provisions of this order.

(n) *Reports.* On or before the 20th day of each month following a calendar quarter, each person who put into process more than 1,000 pounds of lead for the production of any of the products or uses described in paragraphs (b) to (h), inclusive, of the order, during the preceding quarter shall file two copies (one certified) of Form WPB-4138, with the Chemicals Bureau, War Production Board, Washington 25, D. C.

(o) *Appeals.* Any appeal from this order must be filed by letter in duplicate addressed to the Chemicals Bureau, War Production Board, Washington 25, D. C., Ref: M-384, setting forth the reasons for the appeal and the necessary supporting information. Such information should include:

(1) The product for which the lead will be used. If the appeal is taken from the provisions of paragraphs (d), (e), (f), (g) (h) (i) or (j), indicate proposed use of the product, i. e., preferred, civilian, or both.

(2) Period of time, not exceeding one calendar quarter, for which relief is requested.

(3) Monthly schedule of amount of lead appellant would like to use for the particular product and the portion of this which is in excess of the quota permitted by the order.

(4) If the appeal is for an increase in quota to fill orders for preferred uses, state the name of the procuring agency, the end use description, prime contract numbers and dates when the orders were received.

(5) If the appeal is filed because the restrictions of the order will prevent the filling of civilian orders of extreme urgency, give exact information as to the use of the product in which the lead would be used, names of the customers and preference ratings, if any, covering the orders.

(6) Any other information pertinent to the appeal.

Ordinarily, consideration will be given only to those appeals showing that the quota limits on the consumption of lead will prevent the filling of orders for "preferred uses" or most essential "civilian uses" The War Production Board

will not consider favorably appeals based on the fact that the appellant would be unable to fill orders for civilian uses in amounts as large as he had previously delivered, or that he will be unable to fill orders for civilian uses to the same extent as other persons. Attention is called to the provisions of Priorities Regulation 16 with respect to the statement of manpower requirements which must be submitted with the appeal.

NOTE: Paragraphs (p) and (q) formerly (k) and (l), redesignated Mar. 27, 1945.

(p) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(q) *Communications to War Production Board.* All communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-384.

Issued this 27th day of March 1945.

If any mileage is allowed pursuant to this section, no mileage shall be allowed for driving in course of work, unless the driving in the course of work consists of preferred mileage as defined in § 1394.7706, or semi-preferred mileage as defined in § 1394.7708:

11. Section 1394.7708 is added to read as follows:

§ 1394.7708 *Semi-preferred mileage.* Occupational mileage driven in a passenger automobile or motor-cycle by the owner or person entitled to the use thereof, which is not deemed preferred mileage under any paragraph of § 1394.7706, and which is driven by the persons for purposes listed below in paragraph (a) shall be deemed semi-preferred mileage.

(a) By the following persons for the following purposes:

(1) By any person for necessary travel to and return from an establishment or facility listed in § 1394.7706 (o) or construction job which will be such an essential establishment or facility when completed:

(i) For the purpose of performing services necessary to the operation or functioning, as that phrase is defined in § 1394.7706 (o), of such establishment or facility, or to the completion of such construction job. Buying, selling or promoting good will, in and of themselves, do not make a person eligible under this subdivision.

(ii) For the purpose of performing accounting or legal services necessary for the administration of such establishment, facility, or construction job.

(iii) For the purpose of inspecting physical property if the inspection is necessary for making a business loan to such establishment, facility, or construction job.

(iv) For the purpose of inspecting physical property if the inspection is necessary for adjusting and settling property insurance damages claimed by such establishment, facility, or construction job (but excluding a person who engages in selling insurance).

modities, for necessary travel from place to place to buy commodities for the account of establishments or facilities listed in § 1394.7706 (o) or construction jobs which will be such essential establishments or facilities when completed. Use of the commodities must be necessary to the operation or functioning, as that phrase is explained in § 1394.7706 (o), of such essential establishments or facilities, or to completion of such construction jobs. No mileage may be allowed under this subparagraph for use by a person who is compensated by any person from whom he buys, and no mileage may be allowed to a person for use while engaged in sales promotion activities at the same time he is engaged in buying.

(b) The total occupational mileage allowable as semi-preferred mileage, when added to any non-preferred occupational mileage allowed for use in such vehicle, shall not exceed an average of 825 miles per month. (Any mileage allowed pursuant to § 1394.7707 (a) is non-preferred occupational mileage.)

(c) No mileage may be allowed under this Section for driving between home and a fixed place or places of work or between fixed places of work. Such mileage in excess of an average of 400 miles per month in Area A (475 miles per month in Area B and 325 miles per month in the gasoline shortage area) is additional mileage and may be allowed only in accordance with § 1394.7706 or § 1394.7707.

12. The text of § 1394.7754 (b) is amended to read as follows:

(b) Subject to the provisions of paragraph (a) of this section, the Board shall allow the total average occupational mileage per month determined by it to be required for driving within the continental United States, during the three months period specified in § 1394.7753 and shall issue a ration in accordance with the provisions of § 1394.7755 to provide such mileage: However, no Board may allow an average mileage for any one vehicle or an average mileage per vehicle for any group of vehicles in excess of the maximum set forth below, unless the mileage in excess of any such maximum is defined as preferred mileage under the provisions of § 1394.7706 or as semi-preferred mileage under the provisions of § 1394.7708.

This amendment shall become effective May 1, 1945.

### PART 4003—SUBSIDIES; SUPPORT PRICES

#### 1945 CROP SOYBEANS PRICE SUPPORT PROGRAM

The War Food Administrator having by letter and enclosures dated March 23, 1945, submitted certain information and recommended a price support and subsidy program for soybeans of the 1945 crop, under which Commodity Credit Corporation will make provision for loans to and purchases from producers of soybeans and will absorb a portion of the amount by which maximum prices on soybean products do not reflect the support price to producers.

I hereby find that the program proposed to me by the War Food Administrator will fulfill the requirements of section 4 (a) of the act of July 1, 1941, as amended (15 U.S.C. sec. 713a-8, Supp. III), and is necessary to effectuate the policy established by Executive Orders 9250 and 9328 and specifically to insure the maximum necessary production and distribution of soybeans and soybean products to meet military, lend lease and civilian requirements.

Accordingly, the War Food Administrator is hereby authorized and directed to carry out through Commodity Credit Corporation the program described in the War Food Administrator's letter and the memorandum enclosed therewith.

At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) For a period of 90 days, commencing on the day and at the hour named above, the public lands affected by this order shall be subject to (1) application under the small tract act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (Public Law 434—78th Congress), subject to the requirements of applicable law, and (2) application under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confir-

(c) Commencing at 10:00 a. m. on the 91st day after the lands become subject to application under the small tract act, as hereinabove provided, any of the lands remaining unreserved and unappropriated shall become subject to application by the public generally, under that act.

(d) Applications under the small tract act by the general public may be presented during the 20-day period immediately preceding such 91st day, and all such applications, together with those presented at 10:00 a. m. on that day, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, should accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circ. 324, May 22, 1914, 43 L. D. 254) to the extent that such regulations are applicable. Applications under the small tract act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

Leases under the small tract act of June 1, 1938, will be required, within a reasonable time after the execution of the lease, to construct presentable, substantial improvements. Leases will be for a period of 5 years, at an annual rental of \$5, payable yearly in advance. The lands will be leased in tracts of approximately 5 acres, the depth of each tract to be not more than twice the width, the layout of the tracts to be determined at the time of a subdivisional survey. Any applications filed for tracts in the W½ of lot 2 of the NE¼ sec. 2, T. 4 N., R. 10 W., should describe the land desired according to the rectangular system of surveys so far as possible. Where needed, such applications will be adjusted to describe the tracts in terms of the plat of subdivisional survey after that plat has been approved, accepted, and officially filed.

All inquiries relating to these lands should be addressed to the Register, District Land Office, Los Angeles (12), California.
